INTRODUCTION.

Genealogical — W. 00

THIS volume is in continuation of three other volumes printed by this Society—volume II., The Index to the Wills and Inventories at Chester, 1545 to 1620; volume IV., the same from 1621 to 1650; and volume XV., the same from 1660 to 1680. In the several Introductions to these volumes a full account of the wills at Chester will be found, so that it would be useless to repeat the same information here. It is perhaps only necessary once more to explain that the old diocese of Chester embraced the whole of the two counties of Chester and Lancaster, together with certain portions of York, Cumberland, and Westmoreland. The wills belonging to persons dying in the North of Lancashire, that is, in that part of that county lying to the north of the river Ribble, which flows through Preston, and the parts of Cumberland and Westmoreland belonging to the old diocese of Chester, were as a rule proved at Richmond, in Yorkshire, that place being far more accessible to the inhabitants of that district than Chester. These "Richmond Wills," as they were called, proved previous to the year 1748, were a few years since removed to Somerset House, London, and in volumes X. and XIII. of the publications of this Society, all the Lancashire wills, proved at Richmond, between the years 1457 to 1680 and 1681 to 1748 respectively, and now extant, will be found. All the wills proved at Richmond between the years 1748 and 1858 are now preserved at Lancaster, and can be there consulted.

In the Introduction to vol. XV. it was explained that a great many wills belonging to the year 1670 and other

years had perished from damp and could not now be produced. Such wills were indicated in the list by an asterisk (*). So, too, in this volume the wills for the year 1684 have suffered much from damp, and all those in that year belonging to persons whose names began with N and Y have been totally destroyed, whilst portions of those of persons beginning with O, T, and W are decayed. As before, such wills as are now missing are distinguished from the rest by being marked with an asterisk. It may be mentioned that the bundles of wills for the above letters for the year 1684 were specially examined to see what wills really were missing.

The following is the list of the wills belonging to the years 1681-1700 which have been copied into volume III. of the "Enrollment Books" in the Bishop's Registry, Chester. Those which are *not* now to be found at the Probate Court prior to 1700 are marked with an asterisk:—

In the Introduction to vol. XV. it was announced that quite recently (*i.e.*, in 1887) a number of wills, inventories, and executors' accounts had been found in the Bishop's Registry at Chester. During the present year (1888), the still further sorting of the mass of miscellaneous documents which had accumulated on the floor of one of the upper rooms in that Registry, has resulted in a further number of these wills, &c., having been found. These I hope to be allowed to examine and catalogue before they are removed to the Probate Court.

I have now only to tender my grateful thanks to Sir James Hannen, President of the Probate Division of Her Majesty's High Court of Justice, for his permission to print this and the previous Indices, and also to the officials at the Probate Court, Chester—G. Middleton, Esq., the District Registrar; C. Turner, Esq., the Deputy-Registrar; and Mr. James Smith, the Record Keeper there—for their courtesy and kindness.

Future volumes of these Indices will, I hope, be printed by this Society ere long, bringing the list of the wills at Chester down to 1780, or possibly 1800.

THE following points are commended to the attention of those using this book:—

1. In some cases inventories appear to have become detached from the original wills, and have so been placed in different bundles and indexed under different years. This list, however, being an alphabetical one, such cases will be speedily detected, and it will be easy to replace the inventories in their proper places.

2. Where the word "Inv" *occurs, it signifies that the deceased had most probably died intestate, and that an inventory of his goods had been filed and administration granted to his representatives. Where the word* "Admon" *occurs, it shows that an administration bond had been filed as well. In all other cases the wills themselves are extant, either with or without the accompanying inventories.*

3. It is to be noted that in the Probate Court of Chester the original *wills up to 1838 (and not official transcripts, as in many other Probate Courts) are those shown to enquirers.*

4. Owing to the original spelling of the wills having been followed in the MS. Index, and allowing for possible misreadings, enquirers are particularly desired to search for any name bearing a resemblance to that they are looking for, as for example Leigh for Legh or Lee, Newall for Nowall, Houghton for Haughton, &c., &c. As far as possible this has been indicated by cross references in this list. Words now spelt with an i *then frequently had* y.

5. This list contains all the wills, inventories, and administration bonds now known to be preserved at the Probate Court, Chester, between the years 1681 and 1700 inclusive. It is in continuation of volumes 2, 4, and 15 (Indices to the Wills and Inventories now preserved at Chester, 1545 to 1620, 1621 to 1650, and 1660 to 1680), and will be followed by others, bringing the lists down to 1760, or possibly 1780.

6. In an Appendix will be found the list of all the wills, proved between 1681 and 1700, in which the amount of personalty was less than £40. These wills, which were proved in the Rural Deans' Courts, are generally called "INFRA" *wills, and there are none known of earlier date than 1660. They are kept distinct from the other wills, and when enquired for it is necessary to clearly describe them as being "Infra" and not ordinary wills.*

7. This volume alone, including the Appendix, is an Index to nearly eighteen thousand documents.
